

PTW COUGAR 2 PLANS, CONDITIONS OF USE

Hello buggy builder, we can supply you with the full CAD plans of the Cougar 2, including the laser cutting files (you send the files to the laser/water jet cutters to supply your plate work). We paid a considerable amount for these plans to be made up of the Cougar 2 buggy, and it took us many months of designing, planning, making and testing this buggy until you see it as it is today. From these plans you will be able to build a Cougar 2.

Plans = A PayPal donation between £75 - £100.00 GBP

The formats the drawings are in are as follows

- 3D Parts and complete assembly
- 2D drawings in solidworks format
- 2D drawings in autocad format (DFX, which are the laser cutting files)
- 2D drawings in pdf format
- Exploded parts view
- Front, back & side views of complete buggy
- 304 Stainless materials data sheet.
- Excel parts list/BOM

If you decide you want the plans, your donation in GBP has to be paid via PayPal ([PayPal address popeyethewelder@gmail.com](mailto:popeyethewelder@gmail.com)), we then ask you to sign this statement declaring that the plans will only be used by you and your welder/fabricator.

Email the signed form back to us.

The plans will only allow you, and you alone to build a Cougar 2, in other words we don't want you to get a group together to chip in and make loads of our buggies.

It is your donation fee per buggy.

You must also never sell or give away the plans.

You will also in signing, agree you will never make the plans public by placing them on any web site or forum.

Once you agree to follow the terms and have donated, we will email you a complete set of plans for you to make the Cougar buggy.

PTW COUGAR 2 PLANS, CONDITIONS OF USE

#1/ I will not make these plans public by placing them on any web page or site what so ever, nor sell or give them away.

#2/ I will only make One PTW Cougar 2 with these plans and understand that the terms are your donation per Cougar2

Print Name.....

Signed.....Date.....

Once the donation has been transferred to the PayPal account, and we received the signed terms, we will email you the plans to build your buggy.
